

How to embed fonts in PDF documents and high quality image making

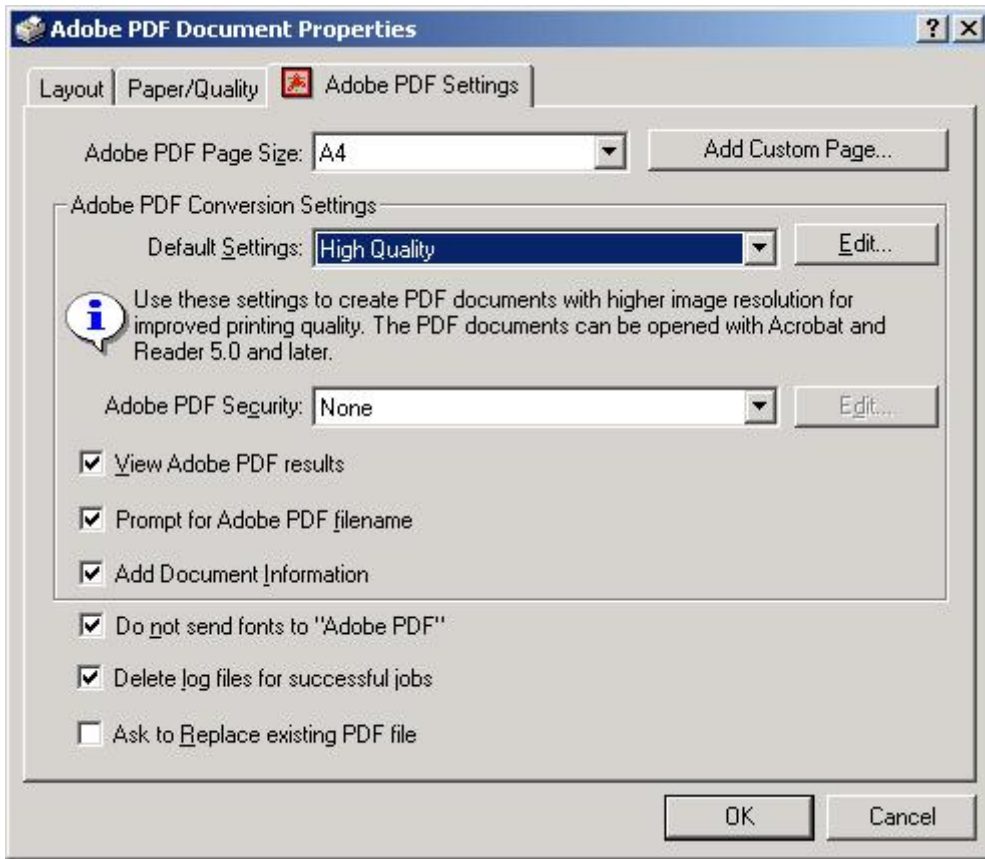

<For Acrobat7.0 user>

- ① From the File menu, select [print].
- ② In the dialog box, Pull down [name] and select [adobe pdf], and then click [Properties].

- ③ Next click [Adobe PDF settings] tab ,and pull down [Default Settings] and select [High Quality].

By this setting, all fonts are embedded automatically.

④ save your file.
