

GCOE, IFS-Tsinghua University Joint Workshop
Participating Report
October 27-28, 2008, at Tsinghua University, Beijing

In cooperation between Tohoku University Global COE program and School of Aerospace, Tsinghua University, “GCOE, IFS-Tsinghua University Joint Workshop” has been convened.

At first, Prof. Zhuo Zhuang made a speech of welcome and Prof. Fukunishi introduced Global GCOE program. Prof. Hayase, the director of Institute of Fluid Science, Tohoku University and Prof. Maruyama, the group leader of GCOE introduced about Institute of Fluid Science and GCOE program. Prof. Xingang Liang introduced School of aerospace. Then the conference was started separated two rooms by each subject of research and forty nine studies were presented.

<Group-A> Fluid / Biofluid / Advanced System & Others

<Group-B> Heat transfer / Combustion System Evaluation & Others

In the sessions, many interactive questions and answers and lively discussion had been carried out by not only professors but students. The two-day's workshop was closed on a high note. It was good opportunity for us to generate an expansive international corroboration research in the future.
