

## The 3<sup>rd</sup> Tohoku University-Seoul National University Joint Workshop on Next Generation Aero Vehicles

September 25-26, 2008

Institute of Fluid Science

Tohoku University

In cooperation between Tohoku University Global COE program and Seoul National University BK21, "Third Tohoku University-Seoul National University Joint Workshop on Next Generation Aero Vehicles" has been convened. Number of professors and students has been participated in this workshop including four professors from Seoul National University, Prof. DongHo Lee, Prof. Inseuck Jeung, Prof. Chongam Kim, Prof. KyuHong Kim, and their eight students. And from Tohoku University, many professors and students from aerospace department and Institute of Fluid Science have been participated. In the sessions, many presentations based on various themes including aerodynamic design, numerical simulation schemes and combustions had been made and lively discussion had been carried out. At the fellowship banquet after the presentations, not only the professors but also the students were actively discussed and deepened exchanges.
