

The 4th Tohoku University – Seoul National University Joint Workshop on Next Generation Aero Vehicle

The 4th Tohoku University – Seoul National University Joint Workshop on Next Generation Aero Vehicle was held on September 28~29, 2009 at Seoul National University in Seoul, Korea. This workshop was organized by Tohoku University Global COE Program and Seoul National University BK21 Program together. The academic exchange between Institute of Fluid Science, Tohoku University and School of Mechanical and Aerospace Engineering, Seoul National University has been going on through this workshop from 2006. Attending this workshop, total of 26 people from Japan, Korea, and China presented 17 technical papers and discussed lively about their researches including aircraft's shape design, vehicles' flow characteristics, jet engines' combustion, and various schemes of computational fluid engineering.
