## General Information

The International Conference on Combustion & Energy Utilization (ICCEU) is the continuation of the formerly Asia-Pacific International Symposium on Combustion and Energy Utilization. The 1st (1990), 2nd (1993) and the 9th (2008) Conferences were held in Beijing, the 3rd (1995) and the 7th (2004) were held in Hong Kong, the 4th (1997) was in Bangkok, the 5th (1999) was in Shanghai, the 6th (2002) was in Kuala Lumpur, the 8th (2006) was in Sochi, Russia, the 10th (2010) was in Turkey, the 11th (2012) was in Portugal and the 12th (2014) was in Lancaster, UK and the 13th (2016) was hosted by Taiwan.

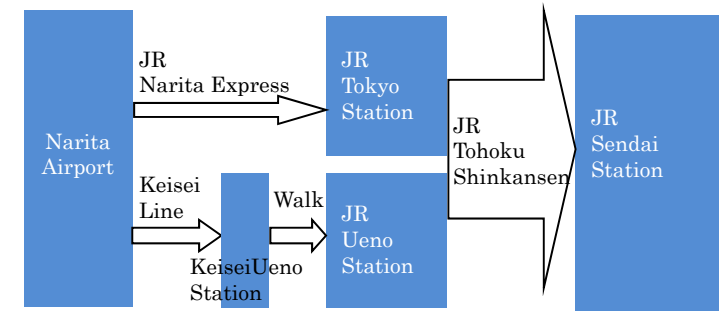

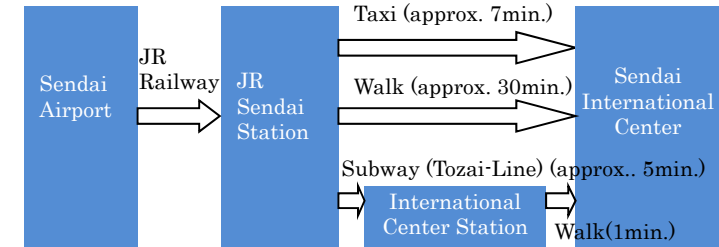

As a consequence of the global preoccupations in more efficient and cleaner energy utilization, the ICCEU is becoming a global event for scientists working in the area of energy combustion and energy utilization. After the previous successful conference in Taipei, Taiwan (The 13th ICCEU, 2016). The 14th ICCEU (2018 ICCEU) will be held in Sendai, Japan in 2018. It provides a forum on exchange of information on innovation, research, development and demonstration in the areas of combustion and energy utilization.
