

Report of International Space University Debriefing Meeting FY2022

On February 14, 2023, we held the International Space University Debriefing Meeting for FY2022, and 12 students who are interested in space, attended the meeting.

Mr. Danishi Ai, a student who participated in the Space Studies Program 2022 of International Space University (ISU - SSP 2022), gave a talk on his valuable experience of 8 weeks, and Prof. Komiya introduced the 30-year history of the ISU-SSP student dispatch program.

Those presentations were of great interest to students who are considering studying at ISU-SSP or abroad, and a lively Q&A session ensued.

* Time and Date: 16:00-18:00 on Tuesday, February 14, 2023

* Venue: Seminar Room on the 3rd floor of the GCOE Buildings,

Institute of Fluid Science, Tohoku University

* Speakers:

- Danishi Ai (M1, Aerospace Engineering), "What I learned at ISU"

- Atsuki KOMIYA (Professor, Institute of Fluid Science), "30 years history of IFS organized ISU-SSP Student Dispatches"

International Space University Debriefing!

Program
Danish Ai (Aerospace Engineering M1)
「What I learned at ISU」

Prof. Atsuki Komiya
「30 years history of IFS organized ISU-SSP student dispatches」

The SSP is a 9-week program held every summer, in which students from all over the world learn about the universe from top instructors.

Participants of the Space Studies Program 2022 (SSP22) by International Space University in Portugal will share their experiences! There will be an explanation of the IFS's SSP dispatch program.

自由参加！途中退室可！

date: 2023/02/14 (Tue) 16~18
place: GCOE building 3F Seminar room

Organize: IFS
