1 What is the “Application Website for IFS Collaborative Research Project?”

The “application website for IFS Collaborative Research Project” is a system used to efficiently conduct application procedures pertaining to the collaborative research project at the Tohoku University Institute of Fluid Science on the Web.

This manual describes the usage methods when the system is used by an applicant.

2 Introduction (precautions)

2.1 About the login ID and password

To use this system, you will need an ID (e-mail address) and password. The ID and password are issued when you register an account. If you don't know or forget your ID and password, please contact the office of Collaborative Research Project, Institute of Fluid Science, Tohoku University (hereinafter referred to as ‘the office’.)

2.2 System Requirements

This system is supported under the following versions of operating systems and browsers. Operation cannot be guaranteed with older versions, so please try a newer version if the system does not operate properly.

This system generally does not depend on the operating system and can be used with the following browsers.

Operating system	Browser
Windows	•Google Chrome •Firefox
Mac OS	•Safari •Google Chrome •Firefox

3 Basic Usage

3.1 Overview of the entire system

The main functions of this website are as follows.

The screenshot displays the 'Application Web Site of IFS Collaborative Research Project'. It features a search and application form with the following fields and options:

- Proposed date:** A date range selector.
- Processing status:** A dropdown menu with 'All' selected.
- Category of application:** A dropdown menu with 'All' selected.
- Applicant:** A text input field.
- IFS responsible member:** A text input field.
- Classification:** Radio buttons for 'General collaborative research' (selected) and 'Confederal collaborative research (included summer school)'. Below are checkboxes for 'Collaborative research including Ph.D student', 'Collaborative research directed by young researcher (under 37 years old)', and 'International collaborative research'.
- Subject area:** Checkboxes for 'Environment and Energy', 'Nano-micro', 'Health, Welfare and Medical Cares', 'Aerospace', 'Fundamentals', and 'Others'.

Below the form is a table of applications with the following data:

No	Serial number	Serial number for Multi	Proposed date	Processing status	Project status	Category of application	Applicant	IFS Non-IFS	Receiving code	Received date	Report submitted or not	Last-updated
1	9		2016/12/13	Received	New	International Multiple Collaborative Research Project	Taro SYOGAI	Jiro RYUTAI	317R000	2016/12/13	No	2016/12/13 ifs admin
2	10	9	2016/12/13	Accepted	New	General Collaborative Research Project	Taro SYOGAI	Jiro RYUTAI	317X999	2017/01/10	No	2017/03/30 ifs admin
3	7		2017/11/28	Returned	New	International Multiple Collaborative Research Project	Taro SYOGAI	Jiro RYUTAI			No	2018/02/19 ifs admin

① Apply

Apply for IFS Collaborative Research Project. Please apply by selecting an application classification such as the General Collaborative Research Project. If you wish to “continue” your project from the previous year, you have to apply for this category.

② Edit the application contents

You can edit your application contents. This function can be used if there are any edit requests from the Office, or if you find any errors in your application information directly after you submit it.

③ Print the application form

Print the submitted data as an application form (in the Excel file format.) This is used when confirming the applied data.

④ Submit a report

After your project is accepted, you can submit your project report on the research findings.

3.2 Login

Display the login screen.

Access the following URL website from the browser.

<https://kyodo.ifs.tohoku.ac.jp/collabo/login.xhtml>

Enter your ID and password and log in from the login screen.

The screenshot shows the login page with the following elements:

- Header: Joint Usage / Research Center, "Fluid Science Global Research and Education Hub"
- Page Title: Application Web Site of IFS Collaborative Research Project
- Buttons: Login (top right)
- Section: Login Form
- Fields: Email * (text input), Password * (password input)
- Buttons: Login (with checkmark), Signup
- Footer: 日本語 | English

3.3 Log out

Select "log out" from the top right part of the screen.

The screenshot shows the application page with the following elements:

- Header: Joint Usage / Research Center, "Fluid Science Global Research and Education Hub"
- Page Title: Application Web Site of IFS Collaborative Research Project
- Buttons: List of application(s) (with star icon), Logout (highlighted with an orange box)
- Section: Applications
- Text: << Create an application >>
- Text: In order to apply, please select "Category of application" and click the "Create an application".
- Form: Select one (dropdown menu), Create an application (button)
- Text: This allows applicant to make his/her search more specific.
- Form: Proposed date (text input), ~ (text input)
- Text: Classification
- Form: General collaborative (checkbox), Conferential collaborative research (checkbox)

★Hint

- It is also possible to log out by clicking the close button on your browser.

4 Submit an application

The applicant should confirm a guideline for the application for the project and then submit the application.

4.1 Submit an application

The application can be generated from the “List of application(s)” screen.

Joint Usage / Research Center, "Fluid Science Global Research and Education Hub"

Application Web Site of IFS Collaborative Research Project [★ List of application\(s\)](#) Taro SYOGAI [Logout](#)

Applications

<< Create a new application >>

In order to apply, please select "Category of application" and click the "Create a new application" button shown in the application list below.

Select one

- General Collaborative Research Project
- International Multiple Collaborative Research Project
- Special International Collaborative Research Project
- Priority Collaborative Research Project
- LyC Collaborative Research Project

Applicant is able to revise the application only if the status is "Applied" or "Returned".

No	Serial number	Serial number for Multi	Proposed date	Processing status	Project status	Continuation Application	Category of application	Applicant	IFS Non-IFS	Receiving code Received date	Report submitted or not	Last-updated

(1 of 1) 1 50

Institute of Fluid Science
Tohoku University

Select the target classification of the application from the pull-down menu to the left of the “Create a new application” button first, and then click “Create a new application.”

*Confirm that the application classification is accurate.

If you are applying for continuation from a previous year, click 'Cont. Apply' from the applications that have already been adopted.

The conditions for applying for continuation are as follows.

Applications whose processing status is "Accepted" or "Transfer DSCR" are eligible.

Category of application	Max year	Conditions for displaying
General Collaborative Research Project	3 years	For 「New」 「2nd year」 「New(progressing present project)」
International Multiple Collaborative Research Project		
Priority Collaborative Research Project		
LyC Collaborative Research Project		
Special International Collaborative Research Project	1 year	Not displayed; Continued application is not allowed.

You will be transferred to the edit screen. Enter the application content.

4.3 Edit the application content (in the event that the processing status is “Temporary saved,” “Applied” or “Returned”)

If the processing status is “Temporary saved,” “Applied” or “Returned,” the application content can be edited. If the processing status is set to “Applied” the application content can be edited because it is being confirmed by the office. If the processing status is set to “Returned,” it means that the application content was deemed to be incomplete as a result of it being confirmed by the office, so please correct the application content.

When editing the application content, click the “Proposed date” of the application data.

The screenshot displays the 'Application Web Site of IFS Collaborative Research Project' interface. It features a search filter section with the following elements:

- Proposed date:** A date range selector with a tilde (~) symbol.
- Processing status:** A dropdown menu currently set to 'All'.
- Category of application:** A dropdown menu currently set to 'All'.
- Applicant:** A text input field.
- IFS responsible member:** A text input field.
- Classification:** A list of checkboxes including 'General collaborative research', 'Confidential collaborative research (included summer school)', 'Collaborative research including Ph.D student', 'Collaborative research directed by young researcher (under 37 years old)', and 'International collaborative research'.
- Subject area:** A list of checkboxes including 'Environment and Energy', 'Nano-micro', 'Health, Welfare and Medical Cares', 'Aerospace', 'Fundamentals', and 'Others'.

Below the filters is a table of applications. The table has the following columns: No, Serial number, Serial num for Multi, Proposed date, Processing status, Project status, Category of application, Applicant, IFS Non-IFS, Receiving code, Received date, and Report submitted or not. The first row of data is highlighted, and the 'Proposed date' cell (2016/12/13) is enclosed in an orange box.

No	Serial number	Serial num for Multi	Proposed date	Processing status	Project status	Category of application	Applicant	IFS Non-IFS	Receiving code	Received date	Report submitted or not
1	6		2016/12/13	Applied	New	International Multiple Collaborative Research Project	Taro SYOGAI	Jiro RYUTAI			No

You will be transferred to the confirmation screen.

At the confirmation screen, you can use the following functions.

“Edit”... Edit the application content.

“Download”...Download the application content as an application form.

“Cancel the application”...Cancel the application. In the event that the application is cancelled, please be aware that the application data cannot be edited.

4.4 Submit an application (for “International Multiple Collaborative Research Project”)

If the application is not accepted when applying for the "International Multiple Collaborative Research Project" and you desire an examination of the “General Collaborative Research Project” (multiple applications allowed,) please apply for the “General Collaborative Research Project” followed by the applied “International Multiple Collaborative Research Project.”

Select “International Multiple Collaborative Research Project” on the application list screen, and click “Create an application.”

If the application is not accepted and you desire an examination of the “General Collaborative Research Project” (multiple applications allowed,) please select “wish to” for the examination of the General Collaborative Research Project.

Enter the other entry fields and then you will be transferred to the confirmation screen.

Review as General Collaborative Research	Please select "wish to" or "do not wish to" apply to the General Collaborative Research Project, if the application is rejected. If an applicant checked the item "wish to", please submit the application(s) of General Collaborative Research Project in addition to this application. <input checked="" type="radio"/> wish to <input type="radio"/> do not wish to
--	--

:

Clear the input data and return to list page	Save the input data temporarily	Confirm the application contents
--	---------------------------------	----------------------------------

Confirm the application content on the confirmation screen and submit your application.

Budget request	Expense classification	Unit price (JPY)	Number of people/Quantity	Amount (JPY)	Route/Item

– Application Website for IFS Collaborative Research Project User Manual –

The application data will be registered for the “International Multiple Collaborative Research Project.”

When you choose other classifications, you will be transferred to the application list screen, but with the “International Multiple Collaborative Research Project,” if you select “wish to” for the review of the General Collaborative Research Project, you can continue to apply for the “General Collaborative Research Project.”

You will be transferred to the confirmation screen, so please click “Submit an General Collaborative Research” on the bottom of the screen.

You will be transferred to the screen where you can register a new “General Collaborative Research Project.” Please enter the application content.

The application flow is the same as the previously described “4.1 Submit application” section.

– Application Website for IFS Collaborative Research Project User Manual –

After submitting your application, you will be transferred to the list screen.

The “General Collaborative Research Project” applied after clicking “Submit an General Collaborative Research” on the bottom of the screen from the confirmation screen of the “International Multiple Collaborative Research Project” application data will display the application number for the “International Multiple Collaborative Research Project” in the following “Serial number for Multi” column.

No	Serial number	Serial num for Multi	Proposed date	Processing status	Project status	Category of application	Applicant	IFS Non-IFS	Receiving code	Received date	Report submit or not
1	3		2016/11/28	Applied	New	International Multiple Collaborative Research Project	Taro SYOGAI	Jiro RYUTAI			No
2	4	3	2016/11/28	Applied	New	General Collaborative Research Project	Taro SYOGAI	taro RYUTAI			No

*When applying for multiple “General Collaborative Research Projects,” transfer to the confirmation screen of the application data of the “International Multiple Collaborative Research Project” and click “Submit a General Collaborative Research.”

5 Print the application form

Print the submitted data as an application form (in the Excel file format.)

5.1 Print the application form

Click the “Proposed date” of the application data that you wish to print as an application form from the application list, and you will be transferred to the reference screen.

The screenshot shows the 'Application Web Site of IFS Collaborative Research Project'. The page includes a search filter section with the following fields and options:

- Proposed date: [] ~ []
- Processing status: All
- Category of application: All
- Applicant: []
- IFS responsible member: []

Classification options:

- General collaborative research
- Confidential collaborative research (included summer school)
- Collaborative research including Ph.D student
- Collaborative research directed by young researcher (under 37 years old)
- International collaborative research

Subject area options:

- Environment and Energy
- Nano-micro
- Health, Welfare and Medical Cares
- Aerospace
- Fundamentals
- Others

Below the filters is a table of applications. The 'Proposed date' column for the first row is highlighted with an orange box.

No	Serial number	Serial number for Multi	Proposed date	Processing status	Project status	Category of application	Applicant	IFS Non-IFS	Receiving code	Received date	Report submit or not
1	6		2016/12/13	Applied	New	International Multiple Collaborative Research Project	Taro SYOGAI	Jiro RYUTAI			No

The footer of the page includes the IFS logo and the text: 'Institute of Fluid Science, Tohoku University. © Institute of Fluid Science, Tohoku University. All Rights Reserved.'

Click the “Download” button from the reference screen.

6 About the edit requests from the office

The application content is confirmed at the office. If an edit is required, there will be an edit request from the office and the target application data can be edited.

After receiving the notification, please edit the application content by following the procedures described in the previously described “4.3 Edit the application content” section.

★Hint

- If there is an edit request from the office, the processing status will be changed to “Returned,” and the applicant will be able to edit the application.

If the application content is complete, you can “accept” the application. (The processing status will be changed to “Received”.) Later, the processing status will be changed to “Accepted” or “Rejected” depending on the examination results of the application content.

7 Submit a report

After the collaborative research is completed, please submit a report.

If the processing status is set to “Accepted,” you can submit a report.

7.1 Submit a report

Click the “application date” of the application data that you wish to submit as a report from the application list, and you will be transferred to the reference screen.

The screenshot shows the 'List of application(s)' page. At the top, there is a navigation bar with 'Application Web Site of IFS Collaborative Research Project' and a 'Logout' button. Below this is a search form with a 'Select one' dropdown and a 'Create an application' button. The search form includes fields for 'Proposed date' (set to 2016/12/13), 'Processing status' (set to Accepted), 'Category of application' (set to All), 'Applicant', and 'IFS responsible member'. There are also checkboxes for 'Classification' (General collaborative research, Conferential collaborative research) and 'Subject area' (Environment and Energy, Nano-micro, Health, Welfare and Medical Cares, Aerospace, Fundamentals, Others). A 'Search' button is at the bottom left of the form. Below the search form is a table of applications. The table has columns: No, Serial number, Serial number for Multi, Proposed date, Processing status, Project status, Category of application, Applicant, IFS Non-IFS, and Re. The first row of the table is highlighted, and the 'Proposed date' cell (2016/12/13) is circled in orange. The footer of the page includes the IFS logo and 'Institute of Fluid Science, Tohoku University'.

Click the “Register the report” button from the reference screen.

8 About the processing status of the application data and e-mail notifications

8.1 About the processing status of the application data

Confirm the processing status of the application data from the processing status column of the application list screen. The processing status will be set as follows.

“Temporary saved”...The application is temporarily saved while the applicant creates the application data. The application will not be submitted if the processing status is set to “Temporary save.” The application data should be edited and submitted by the applicant.

“Applied”...The applicant has created the application data and submitted. The application data can be edited by the applicant if the processing status is set to “Application completed.”

“Checking the application”...The application data is being accepted. The application data cannot be edited if the processing status is set to “Checking the application.” If the application content is confirmed at the secretariat and there are no problems with it, the processing status will be set to “Accepted,” or if an edit request is made to the applicant, it will be set to “Returned.”

“Returned”... If the application data is incomplete and an edit request is made to the applicant, the processing status will be set to “Remand.” If it is set to “Returned,” the applicant can edit the application data.

“Cancelled”...The application data can be cancelled if it is incorrectly submitted. It can be cancelled if the processing status is set to “Temporary saved” or “Applied”

“Received”...The application content is confirmed by the secretariat, and if there are no problems with the application content, the application will be accepted.

“Accepted”...The applications that are selected as a result of the examination will be displayed as “Accepted.”

“Transferred”... The applications that are rejected as a result of the examination will be displayed as “Transferred.”

8.2 About the e-mail notifications

During the following processes carried out by the applicant, an e-mail notification will be sent to the secretariat.

- When the application is submitted
- When the application data is edited (when the application data from “Applied” or “Returned” is edited)
- When the application data is cancelled (excluding cases when the “Temporary saved” data is cancelled)

During the following processes carried out by the secretariat, an e-mail notification will be sent to the applicant.

- When the application data is accepted

- When the application data is returned
- When the application data is cancelled

9 Register your account

9.1 Register your account (when registered by the applicant)

The account registration can be carried out by the applicant.

Please click “Signup”.

The screenshot shows the 'Application Web Site of IFS Collaborative Research Project' with a 'Login Form' section. It includes input fields for 'Email *' and 'Password *', and buttons for 'Login' and 'Signup'. The 'Signup' button is highlighted with an orange border. Below the form, there are language options for '日本語 | English' and the IFS logo. The footer contains the copyright notice: '© Institute of Fluid Science, Tohoku University. All Rights Reserved.'

Enter your e-mail address, and place a checkmark next to “I’m not a robot.” Then, click the “Send” button.

The screenshot shows the 'Email Validation' section of the website. It features input fields for 'Email *' and 'Confirm Email *'. Below these fields is a reCAPTCHA widget with a green checkmark and the text 'I'm not a robot'. At the bottom of the form, there are 'Send' and 'Cancel' buttons. The 'Send' button is highlighted with an orange border. The footer includes the IFS logo and the copyright notice: '© Institute of Fluid Science, Tohoku University. All Rights Reserved.'

– Application Website for IFS Collaborative Research Project User Manual –

An authentication URL will be sent to the e-mail address that you entered.

Please register your account from the URL contained in the e-mail.

*Please note that if you do not access the account within 24 hours, the transmitted information will be discarded.

Access the URL listed in the e-mail to register your account. After entering the information, please click the “Confirm” button.

You will be transferred to the confirmation screen. Confirm the content and register your account.
